

COLLEZIONE SPRING/SUMMER 2016
B-SIDE AMERICAN DREAM

Flawless double-breasted suits, ice looks. The captivating rhythm of jazz music is going crazy, interrupting, at times, the threatening gunshots that echo in the dark alleys of metropolis that never sleep.

For the spring / summer 2016 season, Bertoni 1949 carries its journey into the American Dream, this time characterized by dark, mysterious and dangerously irresistible shades.

The hand-painted decorations enhance the excellent craftsmanship of the company, recognizable in each of the brand's products.

Hand-painted skulls, bandana motives and flies trigger contemporary marks on the classic and smart parchment trunks, the 24-hour attaché and the sophisticated and functional briefcases. The white-and-black combination creates a graphic effect that the new "Game Trunk" celebrates by revealing, in this season, a sophisticated chessboard.

The Contemporary line cleverly mixes leather and canvas, combining the urban charming twist to the brands' pure forms, exclusive details and selected materials. The stylistic exploration results in soft travel bags, sailor kit bags, metropolitan tote bags and cross body bags.

Next to the white-and-black combination, warm and elegant shades color the brand palette with a powder blue, a forest green and scorched-earth brown.
